

# Back to Basics

## Kansas Troubles Quilters

I've spent the last few months sorting, purging and organizing all of my quilting supplies since moving into my new studio. I promised I wouldn't take anything to the new space that I didn't love, use or want to have on display. It inspired me to take a look at other areas of my home, too. Robert and I started on a weekend campaign to edit our closets, kitchen cabinets and home decor to create some breathing room. I'm so happy with my capsule wardrobe (and empty drawers) in my closet and will enjoy adding a few classic pieces as needed. Back to Basics, to me, is like a little black dress or great fitting jeans. It works with everything else I have and will never go out of style. I hope you enjoy mixing all the timeless prints and colors of Back to Basics into your KT stash.
