## 3 Sisters

From Paris to Marrakech, New York City to Japan, the world is filled with beautiful gardens, especially in the spring. When you love flowers as much as the 3 Sisters, your travels have taken you to many such places.

In their signature style, Promenade takes favorite elements from each to make an eclectic collection that evoke formal, cultivated gardens, and those covered with climbing vines and briars. Colored in shades of rose, sunshine, blush, sky and soft gray, the Sisters have created a bouquet that will suit every style.
